

## To Cross Reference Parts

From the Main Menu select the following options:

- # 7 Files
- #13 PM Interchanges
- # 3 Work with substitute- Do it both ways- (Ex: IBM to CDW then CDW to IBM)

```
South Point Systems Inc.                                Program: SUB01M
                                                         Date---: 8/14/03
                                                         Time---: 16:19:22
                                                         User---: SARAH

Work with Substitute Parts Master File

Enter Line Code For Substitute FROM Parts-----: IBM
Enter Part Number To Begin At Certain Part Number:
Enter Line Code For Substitute TO Parts-----: CDW
Enter Origination Code To View Only That Code----:
(Origination Code For Parts You Have Entered Will Be Blank)
(Parts From A Manufacturer Or Warehouse Update Tape Will Vary)
INSTRUCTIONS: Enter the linecode you want to use for the substitute FROM line.
               Enter a part number to begin with in the substitute master file
               or leave blank to start at the beginning of the substitute line.
               If you will be adding part numbers TO the substitute file
               then you must enter the linecode for your current part numbers
               you will be substituting to.

F7 - EXIT PROGRAM
F12 - DELETE ALL SUBSTITUTE PART RECORDS FROM A PARTICULAR LINE CODE
F17 - DISPLAY LINECODES
```

For Cross-Referencing to take effect, you must setup part number in Line Code with both Part Numbers.
